

## 1. Brand logo not changing when switching brand

When selecting a different brand from the brand selector, the logo in the header does not update to reflect the selected brand.

### Steps to reproduce:

1. Go to <https://store.ui.com/>
2. Change brand from top left corner, for example to UISP

### Expected result

Based on the selected brand:

- Brand logo changes to reflect the chosen brand
- Products match the selected brand

### Actual result

- Brand logo is always UniFi, regardless of the selected brand
- Products are shown correctly

## 2. Carousel navigation arrows intermittently unresponsive in “Top 10 accessories” section

Left/right navigation arrows in the “Check out our top 10 accessories” carousel are not consistently clickable.

### Steps to reproduce:

1. Go to <https://store.ui.com/>
2. Scroll down until you see **Check out our top 10 accessories** carousel
3. Using the arrows, scroll right/ left to see all 10 accessories

### Expected result

Carousel scrolls smoothly and consistently on every click, as it does for **Take a look at what’s new** carousel

### Actual result

- Arrows sometimes do not respond
- Click may select the product behind the arrow instead

### **3. Text flickers when hovering over carousel navigation arrows**

Text inside the “Top 10 accessories” section flickers when hovering over navigation arrows.

#### **Steps to reproduce:**

1. Go to <https://store.ui.com/>
2. Scroll to **Top 10 accessories** section
3. Hoover mouse over left/right navigation arrow

#### **Expected result**

Text remains stable

#### **Actual result**

Text is flickering during hover
